

Memorial to Harold M. Frost, M.D., (F.E.O.D.)

Introduction

It is unfortunate I could not include all that was written about Harold due to page limitation and my own effort to avoid redundancy. Among my selections were writings that characterized this great individual well, the Harold Frost I know.

Included are articles on:

- **His Contributions** by Charles Turner, David Burr, Web Jee
- **Colleagues Gather to Say Goodbye to Dying Doctor** by Scott Smith (an interview with Hal on April 20, 2004, reprinted from the Pueblo Chieftain)
- **A Tribute** by Webster S.S. Jee, reprinted from the Journal of Bone and Mineral Research
- **A Memorium** by Robert R. Recker, reprinted from Bone
- **For Hal** by Douglas W. Axelrod
- **Harold M. Frost, M.D. (1921-2004)** by Hideaki Takahashi
- **A Tribute** by Antonio R. Villaneuva
- **A Commemorative Tribute** by Wanda High
- **About Harold** by R. Bruce Martin
- **A Personal Note** by A. Michael Parfitt

Lastly, I must apologize that I could not include everyone's input about this great one. My many apologies.

Webster S.S. Jee, Ph.D.
