

ISMNI Working Group

9. Black Forest Forum for Musculoskeletal Interactions

May 10.-12. 2016 Castle Bad Liebenzell

Organized by the International Society for Musculoskeletal and Neuronal Interactions
and Hans Schießl

All participants are invited to send an abstract for a lecture. Especially young researchers are encouraged to present their results.

The forum is limited to 45 participants that will be accepted on a 'first come first serve' basis. Lectures will be followed by an exhaustive discussion. The chairmen are asked to lend wings to the discussion and not to limit it.

The meeting is located in an ancient castle near the village Bad Liebenzell in the black forest.
