New JMNI Design

With the June 2016 issue, JMNI comes in a new design. Hylonome Editions, the company that maintains the journal website and produces JMNI issues has modernized the look and feel of all things JMNI. The changes include:

- A mobile-friendly web page sporting a modernized JMNI logo.
- A box with tweets from JMNI's Twitter account (@TheJMNI, maintained by Associate Editor Alex Ireland).
- A download counter for each JMNI article. The number of downloads (since May 3, 2016) of each article is now shown above its title.
- A link to subscribe to the JMNI newsletter that announces new issues.
- JMNI articles now come in a sleek new design with improved readability.
